**TO THE CITIZENS OF HOLDERNESS:**

For the last few years at least your school board has been handicapped in its work through lack of funds for carrying on the work of the schools in a satisfactory manner. Even under the strictest economy a deficit has appeared, which has made it necessary for the school board to ask for a deficiency appropriation, or to borrow from the next year's appropriation. The economy practised has not been for the best interests of our schools. Low teachers' salaries have had to be paid; needed repairs on school buildings have had to be foregone; text books and necessary scholars' supplies have been furnished below a satisfactory minimum. In no other way could the appropriations be made to come any where near the necessary expenses of schools.

In order to keep within the present year's appropriation, this same economy has been practised. To continue this year after year would mean the lowering of the standard of our schools and the ruination of our buildings for schools purposes. All our school-houses need painting very badly; all of them need many minor repairs made every year in order to keep them presentable; sufficient salaries should be paid

to teachers so that we can compete with surrounding towns in securing the best of service. The next year's budget has been very carefully made out. It contains no items which are not absolutely necessary for the maintenance of good schools in your town. The total amount is very little more than the appropriations for this present year. We respectfully ask that you show confidence in the judgement and loyal interest of your school board by granting the budget in full.

Last summer a chemical toilet was installed in the Carr school and is working very satisfactorily. The old toilet was absolutely unfit for use, so a new addition was made to the school building and the chemical toilets installed. It is the opinion of the school board that these chemical toilets should be installed in all our schools. If one were done every year the burden would not be great.

For the coming year we are asking an appropriation for installing one of these toilets at the Bridge school; also for painting the building outside; and affording some facilities for caring for our wood, either by repairing the present wood shed, or building anew. A visit to the school will convince anyone of the necessity of these improvements.

Asking for your continued cooperation, and assuring you of our interest and service.

Respectfully submitted,

CAROLYN C. BAKER,  
MARY J. FLEMING,

School Board of Holderness.
